## Neuropsychological and Psychological Testing

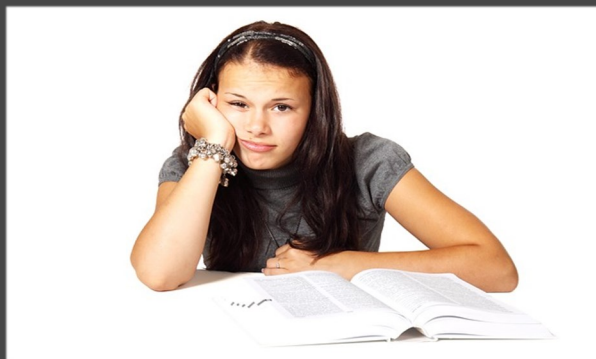

- ◆ ADHD/ADD Assessment
- ◆ Autism Spectrum
- ◆ Learning Disability
- ◆ Diagnostic Clarification
- ◆ Treatment Guidance

The psychologists at Pathways are a frequently sought after referral source for psychiatrists, physicians, schools, educational advocates, counselors, case managers and parents to assist with clarifying diagnoses and guiding treatment approaches. Pathways Psychology Services has become a reliable and trusted sourced for psychological and neuropsychological assessment in the Chicagoland area.

### Reasons for Psychological & Neuropsychological Testing:

- \* Clarify the nature of the behavioral, cognitive, or emotional problems
- \* Provide a more objective diagnostic approach to making a diagnosis
- \* Distinguish the nature of academic and learning challenges and inform school planning
- \* Identify strengths and weaknesses relevant to treatment planning
- \* Aid in the guidance of treatment, medication decisions, appropriate therapies, school accommodation, interventions, and counseling approaches
- \* Provide evidence for the necessity of support services, school interventions, accommodations, and allowances

### Problems Addressed:

- \* School Performance issues and learning problems
- \* ADHD
- \* Autism and Asperger's Disorder
- \* Clarification of mood and anxiety disorders
- \* Complex symptom presentation
- \* Change/decline in mental functioning
- \* Evidence for disability
- \* Behavioral problems
- \* School and college accommodations
- \* Lack of progress in services

### Our Reports are:

- \* Comprehensive, useful, and helpful
- \* Relevant and individualized
- \* Completed in a timely manner
- \* Billed under insurance in most instances
- \* Completed by psychologists who also provide individual, family, and group therapy thereby allowing for the incorporation of experience in ongoing treatment with qualified test and data interpretation
- \* Use research-based assessment tools and the most up-to-date standardized testing tools available

**Dr. Joe Roszkowski, PsyD, Clinical Director** is a licensed clinical psychologist who has been working in the human services field for over twenty years. He provides individual, family, and couples therapy, and psychological testing to children and adults. He designed the curriculum and has been running the Activity Social Skills Groups for Boys program for over ten years.

**Dr. Jennifer Smigiel, PsyD, LCP** is a licensed clinical psychologist with extensive experience working with children and adolescents. Dr. Smigiel works with hospital-based programs in the area. She is also a referral source for adoption, foster-care, and the state of Illinois child welfare system. Dr. Smigiel has extensive experience with complex diagnostic issues, academic testing, and neurocognitive assessment.

**Dr. Mandi Thompson, PsyD, LCP** has a variety of experience with children, adolescents, and families by providing individual and family therapy, as well as comprehensive psychological assessments. Dr. Thompson has worked with diverse populations exhibiting various levels of functioning, including individuals with intense trauma histories and attachment issues, mood and behavioral disorders, and anxiety disorders. Dr. Thompson is the supervisor of the Psychological/Neuropsychological Testing program at Pathways and assists in the training, research and administration of this program.
